

## KING'S BIRTHDAY AT GRINDROD IS GREATLY ENJOYED

Thrilling Horse Races, Baseball Games, and Track and Field Sports, Form Program

GRINDROD, B.C., June 6.—The June 3 celebration at Grindrod was as usual a great success, although the unsettled weather caused a considerable decrease in the gate receipts. Field sports during the day were well-contested and the added attraction of the baseball game between Vernon and Salmon Arm was appreciated. The dance in the Farmers' Hall in the evening wound up the successful day's events, and was crowded.

A series of horse races were held on the track during the afternoon, many of the heats being fiercely contested. The Indian pony events were especially enjoyable to the crowd, the majority of the finishes being of the neck-and-neck variety.

Miss P. Redgrave, of Vernon, spent the week end with Grindrod friends. Mrs. George H. Wells and son, of Vernon, spent the week end with relatives here.

Mrs. C. W. Crandall returned from Kamloops on Friday where she has been for medical attention. A son was born to Mr. and Mrs. R. C. Belding at the Salmon Arm hospital on Sunday.

Miss Edna Anderson returned from the Salmon Arm hospital on Sunday after receiving treatment there.

## LABORATORY YIELDS NEW FACTS ON KELLOGG'S ALL-BRAN

Its "Bulk" and Vitamin B Help Relieve Constipation; Also Has Blood-building Iron

New laboratory experiments demonstrate that Kellogg's ALL-BRAN has sufficient "bulk" to exercise the intestines, as well as Vitamin B to help tone the intestinal tract.

In addition, Kellogg's ALL-BRAN supplies twice as much blood-building iron as an equal amount by weight of beef liver.

Now you can overcome common constipation by this pleasant "cereal-salt" and "cereal-salt" combination. It's the only food that gives you energy that so frequently results.

No need to worry along with pills and drugs, which often lead to harmful habits.

Instead, just eat two tablespoons daily of Kellogg's ALL-BRAN—adequate for most types of constipation. If your intestinal trouble is not relieved this way, see your doctor. The "bulk" in ALL-BRAN is much like that of lettuce inside the body, it forms a soft mass, which gently clears the intestines of wastes.

Special processes make ALL-BRAN finer, softer, more palatable. It is not habit-forming. Equally tasty as a cereal, or used in cooking. Recipes on the red-and-green package. At all grocers. Made by Kellogg in London, Ontario.

### LEAGUE LEADERS TAKE BAD TUMBLE

Rutland Drops 11-1 Game To Kelowna Ramblers In Central Baseball League

RUTLAND, B.C., June 6.—The Kelowna Ramblers handed the league leading Rutland nine a 11 to 1 defeat at the Kelowna Athletic park on Monday last week. Morrow in the box for the home team, held the visitors to 2 safe hits while his team mates pounded Thorion for 9 safeties, which with the assistance of numerous errors by the Rutland nine, they converted into 11 runs in 4 turns at bat. A shower delayed the start of the game and made the field slippery for the visitors. This contributed somewhat to their downfall, as many costly errors were due to fielders being unable to stop themselves in time when running after flies and grounders. A. Kitch, the Rutland first baseman, was injured in a collision on first early in the game, and had to retire, further weakening the team.

Batteries were: Rutland: Thorion and F. Kitch. Ramblers: Morrow and Cowan.

Score by innings:

Rutland 1 0 0 0 0 1

Ramblers 1 1 5 4 8 11

Umpire: Dalton.

Heavy rain prevented the Oryama Hornets game billed for the same night. This game was postponed to June 3, and later defaulted to Oryama. Rutland won from Winfield on June 3 by 11-7.

Central League Standing

Rutland 6 5 1 .333

Ramblers 4 2 2 .500

Oryama 4 2 2 .500

Winfield 4 1 3 .250

Hornets 4 1 3 .250

Salmon Valley Notes

SALMON VALLEY, B.C., June 6.—Mrs. G. W. Gamm, of Armstrong, was a visitor at the home of Mrs. A. J. Heywood for the day last Tuesday.

The Rev. W. E. Fullerton, of Falkland, was a visitor at Silver Creek last Wednesday and Thursday.

Mr. and Mrs. A. J. Heywood and family, and Miss Mary Pritchard and family, were in Kamloops last Friday and visited Mrs. Blackmore and family of that city.

John Demmon who is working in the valley, spent last Friday at his home at Westwood.

Cyril Hope, of Armstrong, spent the week end visiting friends in this valley.

Mrs. L. J. Bowring, of Glenora, spent last Sunday with Mrs. Edson and family of Schweib's Bridge.

Mr. Spensley and James Metcalfe, from the relief camp at Squilax, were in the valley last week. J. Metcalfe visited friends at Schweib's Bridge while Mr. Spensley went on to Falkland for the week end.

"What did you learn in Sunday School today, dear?"

"The Lord is my chauffeur, I shall not walk."

### Will Race In Canada

MISS ENGLAND III READY FOR TRIALS

Miss England III, as set up for the international contests at Lake Garda, Italy. Here we see Lord Wakefield and Kaye Don receiving the speedboat from Sir John Thornycroft at London. Kaye Don will be bringing Miss England III to Canada this year and will quite likely race her at the Canadian National Exhibition, Toronto.

### VALLEY TOURNEY AT VERNON CLUB ON DOMINION DAY

Capt. E. M. Wilmore Is Official Referee—Country Club Is To Assist

July 1 and 2 have been the dates decided upon for the eighteenth annual Okanagan Valley tennis championships, which will be held at the Vernon Lawn Tennis Club, which was inaugurated by those of the Country Club, as the venue.

Captain E. M. Wilmore has been named official referee, with Alfred Watts as Secretary-Treasurer. Miss Elsie Beattie, assistant Secretary, W. A. Fullerton, assistant Treasurer, and an executive committee composed of Mrs. C. M. Watson, Miss M. Toole, Richardson, E. A. Haggie, W. S. Harris, P. S. Sterling, L. P. Costerton, and E. Royce.

This executive body is already hard at work in making the arrangements for the tourney, and it is anticipated that the advent of long delayed good weather will make it possible to get the courts into perfect shape.

### VERNON ENTERS CELLAR BERTH IN LACROSSE LEAGUE

Defeated By Kelowna 5-3 In Game That Was Clean—Missed Sparrow Boys

After a desperate see-saw fight to keep out of the cellar berth in the Okanagan Valley Lacrosse League, Vernon's hard-working lacrosse squad lost by a 5-3 tally at Kelowna last Sunday afternoon.

At the same afternoon the Salmon Arm team advanced to the head of the league by an unexpected 5-0 home town triumph over the Armstrong contingent.

The Vernon boys were weakened considerably last Sunday, especially on the defence with the absence of Rod Sparrow, who was doing the heavy lifting for the locals in the baseball tilt against Kelowna.

P. Campbell scored the opener for Kelowna before the game was two minutes under way, and Charlie McMillan boosted their lead with another counter before Nick Carew got through for Vernon's initial marker. Nick was in fine form and early in the second stanza notched up his second goal to tie the count. The period ended with the score deadlocked.

Vernon was handed out only three penalties throughout the whole game by referee Dolly Gray, and it was an unfortunate thing that two of these came in the first minute of the third frame. With Bill Gray and Geoff Balcombe in the cooler, Stubbs worked his way in to register for Kelowna just 55 seconds after the whistle. P. Campbell added his second goal to give the Orchard City boys a clean two-goal advantage, but Gray scored on a pass from Carew to bring Vernon back into the picture.

Facing a one-goal deficit the locals entered the final frame to a desperate bid to draw even, but their last hope faded when Gordon Meikle raced through for Kelowna's final tally, the boards showing 5-3 for the Orchard City aggregation at the final whistle.

League Standing				
	W	L	D	Pts
Salmon Arm	3	1	0	6
Armstrong	2	2	1	5
Kelowna	2	2	0	4
Vernon	1	3	1	3

"I want a revolver—for my husband." "Did your husband say what make of revolver?" "No, but I don't think that matters. He don't even know I'm going to shoot him."

### EIGHT RUNS IN EIGHTH GIVE THE GAME TO VERNON

Kelowna Nine Played Classy Ball But the Locals Were A Little Too Good

After tussling with Kelowna for seven innings in an air-tight Interior League baseball fixture at Polson Park last Sunday afternoon, with the score deadlocked at 1-1, the local sluggers stepped into their stride in the eighth stanza to roll up eight runs, thus winning by a wide margin and continuing their undefeated record as the league leaders. The final count was 9-1.

The Orchard City boys, smarting under a lacing which they received in an exhibition tilt here earlier in the season, trotted on the diamond with a classy contingent, and up till the fatal eighth inning, it looked like extra innings to the large crowd of fans. Then the homesters collected six timely safeties to drive Morrow to the showers, while the Kelowna infield cracked under the barrage to contribute several very costly errors.

Morrow, on the whole, showed well as the visiting moundsman, keeping the local sluggers well in hand until relieved by Dalton. He yielded Vernon the opening tally in the second frame, but his team-mates replied with a run in the fourth to even the count, and from then on it was a breathless, see-saw affair, with the decision apparently hanging in the balance.

George Sparrow's south-paw twisters were good medicine for the first six innings, with Harry Cross behind the plate. It was Sparrow's third straight appearance in a regular league tilt. Howard Urquhart took over the heaving for the last three stanzas, teaming up with Elmer Crawford, and Kelowna found this combination equally hard to solve. Cowan, a new catcher on the Kelowna roster, played a nice game throughout.

Score by innings:

Kelowna 0 0 1 0 0 0 0 1 8 6

Vernon 0 1 0 0 0 0 9 3 9 3

Batteries: Morrow, Dalton and Cowan; Sparrow, Urquhart and Cross, Crawford.

Umpires: Bradley and McDonald.

With Kamloops defeating Revelstoke 5-3 on the latter team's home grounds on the same day, Vernon is practically entrenched on top of the league ladder. The standing is as follows:

Vernon 3 0 1 .1000

Revelstoke 2 2 .500

Kelowna 1 2 .333

Salmon Arm 1 2 .333

Kamloops 1 2 .333

### VERNON DEFEATS SALMON ARM AGAIN IN EXHIBITION PLAY

All Star Vernon Nine Wins Five Games Without One Defeat

Vernon's all star baseball team kept its undefeated record by again winning from Salmon Arm to the score of 9-5, in an exhibition game at Grindrod, on the King's birthday. This marks the third time Vernon has been victorious over their main line rivals, and boosts their total wins up to five, without a defeat.

Howard Urquhart made his appearance on the mound for Vernon in this game, and made a fine showing. Howard went the full nine innings, and allowed 10 hits, while he struck out nine of the opposing batters. Most of Salmon Arm's hits were scattered, but in the seventh inning they bunched five hits to score three runs. Farrow and Bell did the hurling for Salmon Arm, but the Vernon sluggers had no trouble in hitting the ball, with the result that they collected 19 safe hits during the game.

Ray Howard was the batting king of the day, gathering five safe hits in as many times at bat, and scoring three runs Jackie Jones led the Salmon Arm batters, when he collected three hits in five trips to the plate.

Score by innings:

Vernon 0 1 2 0 1 2 0 3 0 19 12

Salmon Arm 0 0 0 0 0 1 3 1 0 5 10 4

Batteries: Vernon: Urquhart and McDonald; Salmon Arm: Farrow, Bell and Jones W. Watkins

### TRINITY VALLEY BASEBALL TEAM WELL SUPPORTED

J. S. Patrick Is Manager and G. Bailey, Secretary-Treasurer of New Organization

TRINITY VALLEY, B.C., June 4.—Trinity Valley is becoming sports-minded. A baseball team has already been formed. J. S. Patrick has been appointed manager, with G. Bailey as secretary-treasurer. Some of the equipment has already been acquired and funds for other necessities have been collected. A dance is being held on June 11 to help matters on. Meanwhile there is a good deal of energetic practice playing. These practices are usually held on G. Bailey's field, formerly known as the Miller meadow.

A. E. Toombs and J. Bailey were in the Valley lately, paying a round of business visits.

The Rev. J. Briscoe held morning service and Holy Communion at the School-house last Sunday.

Albert Scott left the valley this week for a stay at Kamloops.

J. Marshall and another government irrigation official were up recently inspecting some of the irrigation areas in the valley.

The government grader is busy on roads here though somewhat hampered by the heavy rainfalls.

### KELOWNA TENNIS AND GOLF PLAYERS MAKE INVASION

Of Vernon Club Premises On Saturday and Sunday—Victories Divided

There was an invasion of Kelowna tennis and golf players into Vernon over the week end, the Vernon Lawn Tennis Club and the Country Club being hosts to visiting tennis teams, on Saturday, while a team of 20 Orchard City golfers competed for honors against local players on Sunday.

Victories were divided in tennis, the Vernon Lawn Tennis Club's team, defeating Kelowna by 11 matches to 3, while the visiting senior players won by 7 matches to 6 at the Country Club.

On the golf links the Kelowna contingent demonstrated marked superiority. In the morning, in the singles, Vernon was defeated by 15 to 3, with 2 matches drawn. In the afternoon, in the four-ball foursomes, the visitors were again successful, leading by 21 points to 8. One point was awarded for the first nine holes, a point for the second nine, and a point for the win.

### KEEN CONTESTS IN KELOWNA TOURNEY

A. Seon Captures McEwan Cup And W. Rigney Wins Trench Trophy In Holiday Golf

KELOWNA, B.C., June 6.—Glorious weather and attractive competitions drew a record entry of 80 players to the golf course here on Friday to compete for the McEwan and Trench trophies, in which A. Seon won the former, which was open to members of any of the Interior B.C. clubs, and W. Rigney was declared winner of the latter, after being tied with S. McGladery. The Trench trophy is open to any player in B.C.

Entries included players from Penticton, Summerland, Vernon, Salmon Arm, Kamloops, Vancouver, and Kelowna. In addition to the above trophies two events for seniors, 50 years and over, were played for cups for which were presented by Hon. J. W. Jones, M.L.A. and E. W. Barton.

Presentation of trophies was made by Mrs. C. Quinn after a very appropriate speech by Chas. Quinn, president of the Club.

McEwan Cup, open 36 holes: Winner, A. Seon, 154; runner up, S. McGladery, 156.

Trench Trophy, handicap, 36 holes: Winner, W. Rigney, 140, after a tie with McGladery, runner up, S. McGladery, 140; next best, Shillick, 132.

After a tie with Dr. S. G. Baldwin and D. Currell.

Jones Cup, open 36 holes: Winner, C. Quinn, 168; runner up, H. K. Todd, 171; next best, B. Stewart, 176.

Barton Cup, 18 holes handicap, W. R. Trench, J. D. Quine, and C. Quinn tied at 72. The tie will be played off this week.

Best 18 holes, net: A. Seon, 67; best 18 holes, gross: A. Seon, 75. Longest drive, C. C. Ternan, Aggregate, S. McGladery, Hidden holes, low, S. McGladery, high, K. Elliott.

Old Lady (to Tommy): "Surely your mother could find pieces of material more like your trousers when she patches them."

Tommy: "That ain't a patch; that's me."

## SICAMOUS STORE IS BROKEN INTO

Goods Stolen From M. J. Finlayson's Premises—Many Fishermen Report Catches

SICAMOUS, B.C., June 6.—The M. J. Finlayson and Co. store was broken into Sunday night and a quantity of goods stolen. The culprit has not been located.

The week end on Shuswap Lake proved an attraction for fishermen and both Frank's Boat Livery and the Shuswap Lake Boat Livery were very busy. Among the sportsmen were Fred McMahon, D. Smythe, G. Masson, J. Wadman, Cecil McSorley, Morgan, Davidson, Eddy, Cecil McSorley, Garry Tomlinson, W. Barton, S. Barrage, George Wells, William McRae, Geo. Higgs, Perry Boyd, and Tim Sargood, of Revelstoke, and L. E. Tripp, of Vernon. All reported excellent catches.

**180-Pound Catch**  
Melville Abbott, of the Revelstoke High School staff, had a party of six boys out on the lake for a fishing trip over the holiday. A catch of 180 pounds of fish made the affair a success.

Alex. McKenzie, of Toronto, and George Greig, also of Toronto, were guests at the Hotel Sicamous during the week. They spent a day fishing and brought in a nice catch.

The Hon. R. W. Bruhn, Minister of Public Works, was a visitor here last Wednesday.

Mr. and Mrs. R. E. Bruhn, of Nakusp, were visiting friends and relatives here on Friday.

The Hon. J. W. Jones, Minister of Finance, accompanied by Mrs. Jones, were in Sicamous on Monday evening. Frank M. Burns, Inspector of Customs, was a guest of Hotel Sicamous on Monday.

Among the guests at the Hotel Sicamous during the week were: Miss M. H. Beveridge; Muthill, Scotland; Miss E. M. Smith, of England; J. E. Dugdale, of England; N. C. Carruthers, Loretto, Sherbourne, England; A. N. Russon, and A. D. Bailey, Russon, of Bromsgrove, England; Mr. and Mrs. R. S. Montgomery, Toronto; Mr. and Mrs. Thomas-Townsend, Winnipeg; E. D. Boyce, Milwaukee, Wis.

## SCHOOL CHILDREN TO HAVE PICNIC

Winfield Women's Institute Will Sponsor Outing To Woods Lake Near End of Term

WINFIELD, B.C., June 6.—Owing to the heavy rain the attendance at the meeting of the Winfield Women's Institute, held in the hall on Thursday, was rather small, but much business was attended to.

Arrangements were made to hold a picnic for the school children, near the end of the term, at Woods Lake.

The July meeting which takes the form of a Grandmothers' Tea, is to be held at Lakeshore Inn. The annual Strawberry Festival was arranged to take place on July 8.

Ronald Gunn, who has been in the Cariboo district for several months, returned home on Saturday with Mr. and Mrs. M. McCarthy.

Mrs. Seaton and Miss B. Seaton, of Vernon, spent the week end in Winfield as guests of Mr. and Mrs. J. Seaton.

The Well Baby Clinic will be held in the hall on Tuesday, June 14, when Nurse Grindon and Dr. Ootmar will be present. As this is the last clinic until September, it is hoped most mothers will endeavor to bring their children.

Winfield was well represented at Rutland's annual sports day on June 3, both at the afternoon sports and the dance in the evening.

## Processes and Machinery at Vernon Steam Laundry Prove Delightful Surprise to Many

About 100 Visitors Shown Through Modern Model Laundry

Approximately 100 visited the premises of the Vernon Steam Laundry this afternoon of last week, under a scheme sponsored by the C.G.I.T. of the Vernon United Church, and were initiated into the mysteries of one of the city's most up-to-date establishments.

Conducted by Cecil Johnston, the proprietor and manager of the establishment, and Mrs. Johnston, small parties were conducted through the various departments, the routine of the business being explained carefully.

Housewives were shown how everything from the dirtiest carpet to the finest curtain is treated with the same thorough care, and a few curious male visitors were amazed at the number of processes through which such a comparatively simple looking piece of apparel as a dress shirt must be passed before being returned to the owner.

One of the most interesting phases of the work carried on at the laundry is that in connection with the dry cleaning.

In January, 1931, the establishment installed a special new equipment which renders it possible to clean, deodorize, and press men's suits within the space of an hour and a half. This is a cleaning process which cannot be duplicated anywhere in the interior of this province.

This best of the work is under the supervision of W. Willis. Three hundred gallons of gasoline are pumped through every washing. The fluid is kept continuously moving and is cleaned in a clarifier, where the dirt from the clothing is collected. At the end of every week, and sometimes more frequently, this dirt is taken out.

Visitors to the laundry last Thursday were well-nigh horrified by the heaps of "mud" which were shown to have been extracted from one week's work in the dry cleaning department.

After the clothing has been removed from the gasoline washer, it is next conveyed to an "extractor" which dries and de-odorizes.

Next comes the finishing room, equipped with the very latest apparatus. One press is particularly up-to-date, having cost the company as much as an expensive motor car.

Steam and vacuum arrangements with which it is equipped enable the operator to press garments and suits with speed and ease.

Every Article Identified  
Every article to be cleaned is identified as soon as it enters the laundry. Clothing to be "rough-dried" is identified with pins, while other articles are marked. The identification system is really quite involved, and is so thorough that there is rarely any mix-up in the sorting and wrapping room after the clothing has been cleaned.

One very large rug was being cleaned on Thursday afternoon. It was explained that it had been lying in the unused room of a house for a long period. It was cleaned in the general washing room, on the floor, at the rear of the premises, and looked like a new one when it was hung up to dry. Smaller rugs are cleaned in the large washers.

Curtains, after having been carefully washed, are hung on sliding racks, and pushed into special steam-heated drying compartments. There is a general drying compartment, and another for flannel articles, and another for flannel articles, and another for flannel articles.

There are five washers, one electric, three small and one large ordinary "tubbers." The insides of the latter are of wood that has been worn down to a glass-like smoothness, which means that there is absolutely no danger of the clothing being chafed or irritated. The electric machine can be more precisely controlled, and is used for silk and other fine cloths.

**Electric Dryer**  
After being thoroughly cleaned, the wash is placed in an electric dryer. This is of the centrifugal type, which

expels the moisture through holes in its walls, during the course of its rapid whirling. In a surprisingly short time the clothing is ready for the various ironing and pressing machines.

Other washing is put in a hot-air tumbler dryer.

The large ironing machine is a thing of wonder to watch, and it is in it that the large articles such as sheets are finished. The articles are passed between large rollers, which complete the dual purpose of pressing and folding.

Other articles are ironed by special processes. Two special machines finish off men's collars. One presses them flat, while the other folds them. The bodies of shirts are done on large presses, while an ingenious device is pushed into the sleeves to complete a difficult part of the job. This latter device obviates any crease or pleat in the sleeve, and gives an even finish. Attached collars to shirts are hand-ironed.

One of the oddest looking machines, it was explained, looks after the needs of men's socks. The sock slips upon an adjustable heated "foot," and the pressing is all completed in a few seconds. The holes which are revealed are attended to by nimble fingers.

Machines Handle Nearly Everything  
Throughout the whole process of the laundry only a small proportion of the work is done by hand, the ingenious machines handling nearly everything like automatons, with tireless ease.

At the end of the cleaning journey the various articles are checked with the identification slips, and assigned to their proper bundles in the sorting room. They are then given to the driver and returned to the owners.

A staff of thirteen, in addition to Mr. and Mrs. Johnston, are kept continuously busy on the plant. The employees are a press-woman, three ironers, four flat-work ironers, the dryer, the engineer and washerman, a marker, a sorter, and the driver.

**FIRE DESTROYS ENDERBY HOME**  
Only the Walls of W. Clarke's House Left Standing After Blaze On Holiday

ENDERBY, B.C., June 4.—Shortly after one o'clock on Friday afternoon the residence of William Clarke was discovered to be on fire. The alarm was at once turned in, and the fire hose and many willing hands were quickly on the scene, but the fire had too big a start to save the house, which is practically ruined inside, although the walls are still standing.

Most of the furniture was removed. The contents of the upstairs rooms are badly damaged by water and smoke. The cause of the fire is unknown and seems to have started between the floor of the upstairs and the ceiling of the downstairs rooms. Mr. Clarke was alone at the time, the family and Mrs. Clarke having gone to Grinford a short time before. There is some insurance on the building and contents.

Miss J. Paradis, of the Summerland High School teaching staff, married on Thursday evening to spend the holiday with her mother, Mrs. Paradis, of CHIT Street.

Mr. and Mrs. G. Duncan are having a week's holiday at the Coast. Miss Mabel Cameron, of the Post Office staff visited Vernon friends over the week end.

Mrs. Cheevers and little daughter, of Seattle, are visiting Enderby friends. Mrs. Cheevers is an ex-Enderby resident, being the daughter of Mr. Moffat, who was the manager of the Columbia Flouring Mills here, about nineteen years ago.

William Hutchison left last week for the Coast for medical treatment.

The girl walked into the store and dropped her bag on the counter. "Give me a chicken," she said.

"Do you wanna pullet?" the store-keeper asked.

"No," the girl replied, "I wanna carry it."

## Town and District

J. Warburton was an Armstrong visitor noted in Vernon on Saturday.

Mr. and Mrs. H. K. Cross are spending a holiday at the Coast.

Miss Hazel Neil left last Friday morning on a vacation trip to the Coast.

Mr. and Mrs. Fred Dean have returned to Vernon after a holiday spent at Mara.

Miss Joan Wiseman, of the Royal Bank staff, is spending a vacation at Penticton.

Mr. and Mrs. D. G. Gifford, Isaacs left on a trip to the Coast on Wednesday afternoon's train.

Mrs. A. Braden, of Victoria, is visiting in this city, the guest of Mr. and Mrs. Peter Ponton.

Frank Valair, Jr., returned to Vernon on Wednesday after a short time spent at the Coast.

J. A. Wells and R. B. Garnett were Penticton visitors in Vernon in the early part of the week.

Mrs. C. G. Clement, of Kelowna, is visiting at the home of Mr. and Mrs. C. A. C. Allen, in this city.

Mr. and Mrs. E. A. Boyle and Mrs. J. A. Chambers were Revelstoke visitors noted in Vernon last week.

Mrs. A. Clement left on Tuesday for her home in Calgary after two weeks spent visiting friends in this city.

Lieutenant-Commander and Mrs. F. G. Hart, of Victoria, have been visiting at the home of Mr. and Mrs. Leslie Macdonell.

J. L. Cunliffe, of the Bank of Montreal staff, spent the week end and Friday holiday visiting at the home of his parents at Nelson.

Mrs. A. W. Smith, of Edmonton, arrived in Vernon on Monday and plans to spend two or three weeks visiting her mother, Mrs. J. B. Stewart.

Mr. and Mrs. R. E. Bruhn, of Nakusp, were visitors in this city last week. Mr. Bruhn is the son of the Hon. E. W. Bruhn, Minister of Public Works.

Mr. and Mrs. Ralph Green, of Vancouver, were visitors last week at the home of Mr. and Mrs. H. K. Cross at Kalamalka Lake. On Saturday they left for Kelowna.

Mr. and Mrs. J. M. Douglass, of Grand Forks, and Miss Simpson, and Mr. Keady, of Greenwood, were here over the week end, visiting Mr. and Mrs. William McEwen.

Dr. and Mrs. Jenkin H. Davies are rejoicing in the birth of a son at the Vernon Jubilee Hospital on Tuesday, June 7. Mother and son are progressing splendidly.

J. C. Berry, of Vancouver, is a visitor at the home of Mr. and Mrs. William Forester in this city. Mr. Berry is the father of R. E. Berry, former well known Vernon business man.

A number of Vernon business men and their wives are motoring to the oil and gas property out from Kelowna. It is planned to have a basket picnic following inspection of the property.

A total of 1,584 driver's licenses were issued from the Court House in this city last week, following the governmental stipulation that all motorists must have new licenses after June 1.

Miss Marion Wilnot returned to Revelstoke by motor on Sunday last, after two weeks spent in this city as the guest of her parents, Mr. and Mrs. H. F. Wilnot, of Pleasant Valley Road.

Trevor B. "Happy" Tonge, formerly of this city and well known in this district, has left Charnorall, Chile, where he has been mining for some time, and has returned to his home in London.

After completing her studies at Columbia University, New York, Miss Mary Watts has returned to her home in this city. She arrived here on Sunday evening last, motoring with her brother, Alfred from Sicamous.

A party of Rotarians are planning to spend this Thursday afternoon at the site of the boys and girls camp on Okanagan lake, giving assistance to Mr. Hurbutt in erection of the dining hall, dock and the clearing of the sports grounds.

An invitation has been extended to the Vernon Board of Trade to be represented at the annual dinner and convention of the Associated Boards of Trade of the Similkameen to be held at Princeton on Friday, June 10. Members of the Council of the Board found it impossible to go.

Kenneth Moffatt returned from Vancouver last week and accepted a position with Beatty Bros., under the direction of Mr. Dick. The new post is one of the outcomes of the visit to Vernon by W. H. Sterne, of Edmonton, Alta., who has charge of Alberta and B. C. for this progressive firm.

E. Procter on Wednesday denied rumors, current throughout the day, that the stage which he operates between Sicamous and Revelstoke had been held up and robbed. "There is absolutely no truth in the statement," he declared, "and I can't understand how it originated."

Eight motorists, accused of violating the regulations as regards "stop" signs on city streets, were arraigned before Magistrate Hendy in Police Court on Wednesday morning. All pleaded guilty and sentence was suspended by His Worship. The offenders, however, were given the warning that for a repetition of the offence they will be punished.

Mr. and Mrs. W. D. McKenzie left by motor last Sunday morning for the Coast. They made the trip to Vancouver in twelve hours, and in a telephone communication with W. G. McKenzie, explained that the roads are now in good condition. Mrs. McKenzie is attending a convention of Robekah Lodge members.

Lowell Dunsmore, well known pilot who is visiting this city, attempted on two occasions last Friday to make a flight to Chilliwack where an air show was being held, the occasion being the second anniversary of the opening of the Fraser Valley city's airport. Low clouds and adverse weather prevented him from going either via the Coquihalla Pass or by Kamloops and he was forced to turn back. Accompanying him was A. E. Tombs, of this city.

Major M. A. Curwep, of Sugar Lake, was a visitor noted in Vernon on Monday.

C. C. Turnan, Assistant District Forester, was a Kamloops visitor in Vernon last week.

Morris Finn, of The Vernon News staff, returned on Tuesday's train after spending a holiday at Vancouver.

Miss Dorcas Moore returned to her home in this city after visiting at the Coast.

Mr. and Mrs. Martin Costerton, of Revelstoke, were visitors in Vernon on Monday.

D. McNair returned to Vernon on Sunday night after a business trip to Winnipeg.

Miss Margaret Ormsby has returned from Bryn Mawr College to her home in Lavington.

Mrs. D. P. Howrie and Miss Vida Howrie are at present enjoying a vacation at the Coast.

Miss Bethune, of Seaford, Ont., is a guest at the home of Mr. and Mrs. J. T. Mutrie in this city.

Mr. and Mrs. William Blitch returned to Vernon on Sunday last after a brief holiday spent at the Coast.

Miss Marguerite Dean left on Tuesday evening for Vancouver and will be absent from the Okanagan for the Summer months.

Miss Evelyn Clarke has returned to her home in this city, having concluded a series of lectures on dietetics at the Kelowna General Hospital.

Miss V. Dull had her right foot crushed early on Monday morning when a horse which she was riding slipped and fell.

Mr. and Mrs. Eric French, of Princeton, were visitors last week at the home of Mr. French's parents, Mr. and Mrs. T. French.

Mrs. P. Y. Young, Miss N. Grainger, and Dr. H. P. Tyerman, of Nakusp, were week end visitors at the home of Mr. and Mrs. C. E. Jestley, in this city.

William Brent left on Monday's train for the Coast, where he is to seek an adjustment on pension matters.

The sum of \$42 was realized by the Juniors and the Junior W.A. in the sale of home cooking and tea held in the Parish Hall on Saturday.

Mrs. H. E. McCall left for Summerland on Tuesday to attend the Okanagan-North Thompson-Selkirk District convention of the W.C.T.U., held there on Wednesday and today, Thursday.

W. H. Sterne, manager for British Columbia and Alberta of Beatty Bros. Ltd., left on Thursday of last week for Edmonton after a few days spent on a business visit to this city and district.

The Hon. J. W. Jones, M.L.A., Minister of Finance, was in Vernon for a short time on Monday while en route to the Coast after a brief visit to Kelowna and other points in his constituency. He was accompanied by Mrs. Jones.

E. J. Chambers, President of the Associated Growers of B.C. Ltd., returned to Vernon on Tuesday after a visit to Ottawa where he attended the discussions affecting fruit interests preceding the Imperial Economic Conference.

The Rev. W. A. Stephens, formerly of Seattle, but who plans to make his home in this city while he recuperates his health, left by motor on Monday morning for Wenatchee, Wash. He will be joined there by his wife and two children, and his mother-in-law, Mrs. G. Cline, who will accompany him back to Vernon.

Mr. and Mrs. A. K. Doane left on Wednesday for their home in Toronto after having been the guests of Mr. and Mrs. A. T. Howe for a short time. Mr. and Mrs. Doane came to the Okanagan to renew their acquaintance with Mr. and Mrs. Howe, very old friends of earlier days in Eastern Canada, while en route east after having visited at the home of their daughter in Nanaimo.

The beautiful home of Mr. and Mrs. A. T. Howe at Kalamalka lake was the scene of a happy gathering on Wednesday afternoon when the Prime Minister of the Vernon United Church gave an afternoon tea. More than eighty ladies attended, enjoyed the beauty of the home, lawns and lake view, the music and refreshments.

The advent of summer is accompanied this year, as in past seasons, by the departure of government scientific workers to various fields of study. On Monday E. R. Buckell, Dominion Government entomologist, accompanied by I. J. Ward, left for the Aspen Grove district. Mr. Buckell will be returning to Vernon in a short time, but Mr. Ward, in conjunction with Professor H. S. Gahan, of the University of British Columbia will conduct grasshopper experimental work during the forthcoming months. Hector Richmond is already supervising experiments in another section of the Aspen Grove territory. William Mathers, after the week end spent at the Coast, left for Stanley, in the Cariboo, where he will also be in charge of entomological research.

AWARDS CONTRACT ALL SAINTS CHURCH

P. DeBono Secures Contract To Build According To Architect Keith's Plans

The tender of P. DeBono, Vernon contractor, for the erection and completion of the new All Saints' Church, has been accepted. Such is the announcement of the special church committee which investigated the four tenders submitted, according to the plans and specifications prepared by J. C. M. Keith, Victoria architect. The sum involved, however, has not as yet been made public.

ADVANCES MUST BE REPAYD

VANCOUVER, B.C., June 9.—A motion to suspend three civic officials pending an enquiry into over-expenditure on the exhibition buildings, was defeated in the City Council, Wednesday. The council accepted the terms of the motion, providing the amount is repaid.

## All Dressed Up

The above figure is not a robot but is the result of a cross-country race in England. This contestant apparently saw quite a lot of muddy country.

## COMMON STORAGE

TO BE PROVIDED FOR THIS YEAR

Directors of Oliver Co-operative To Spend \$6,500 On Addition-To-Building

Because the promoters of the proposed new cold storage plant at Oliver insist upon the installation of English rather than Canadian machinery, in contravention of the specification governing the government grant, the project has been temporarily dropped.

At a recent meeting of the Oliver Co-operative Growers it was explained that Ottawa had been approached several times, but there has been consistent refusal to agree to English machinery being used.

The statement was made at the meeting that an English firm had agreed to test the machinery in England, and ship to the Okanagan with a guarantee. The firm's tender was also lower than that of a Vancouver firm.

The following resolution was submitted by the directors:

"That whereas the cold storage scheme to be financed with English capital has been indefinitely postponed, and that whereas the present floor space will be inadequate to handle this year's estimated crop; be it therefore resolved that the directors be empowered to spend up to \$6,500 in building an addition to the south end of the present plant, 96x97, the same to be insulated with the object of using it for common storage."

## SHELL OIL CO. TO BUILD REFINERY

Construction of First Unit Of Million Dollar Plant Is Announced

Construction of the first unit of a \$1,000,000 refinery and distribution plant on Burrard Inlet, near Vancouver, will be undertaken immediately, according to press dispatches of last week.

The clearing and grading of the 80-acre site in North Burnaby will employ several hundred men at once. The property, which has approximately 1,800 feet frontage on the south shore of the inlet, was purchased from the Municipality of Burnaby in 1920 for \$20,000.

The plant will be equipped with a 400-foot deepdock at which tankers will discharge their cargoes of crude oil. The first unit will refine between 2,500 and 3,500 barrels of crude oil per day and its output of gasoline will go to the domestic markets in this province and the prairie. Eventually the plant will handle 10,000 barrels daily.

The first unit will be completed in eight months and it is estimated that 40,000 man-days work will be provided in by various contracts for the construction operations.

Ratepayers of Burnaby in 1930 passed a resolution sanctioning an agreement between the municipality and the Shell Oil Company to provide for fixed taxation of the refinery site area at \$2,000 annually for ten years.

Surveys have been made and soundings taken on the property. Contours are being laid out, and all necessary preparations for an immediate start.

After the property is cleared and graded, foundations will be laid for stills and tanks which will comprise the first unit. Plans have been prepared in such a way that additional units can be added as required.

## MOTORCYCLE CAUSES DEATH

VANCOUVER, B.C., June 9.—Lloyd Thompson, 75, lies near death in the General Hospital as a result of injuries received Wednesday evening when hit by a motorcycle on Granville street. The machine hurled the aged man in front of an approaching street car and he suffered terrible injuries.

VANCOUVER PAYS SIX PER CENT

VANCOUVER, B.C., June 9.—Vancouver will pay its bankers 6 per cent interest on loans instead of 5 1/2 per cent. The council accepted the terms Wednesday, having been notified recently of the boost in the rate.

## THREE B.C. SCHOLARS WIN

TORONTO, Ont., June 9.—Awards of special fellowship given by Toronto University, open to graduates of other Canadian colleges, include two B.C. candidates, J. R. Daniels and Miss M. J. Fisher, of the University of British Columbia.

### THE FREIGHT RATES HEARING

NEXT week the Board of Railway Commissioners for Canada will hold a sitting in Vernon to hear the voice of the Okanagan on the application made by the railway companies for a change in the freight rate classification on apple shipments in bulk. A change which would have the effect of increasing the cost.

No doubt the decision to make such a request was arrived at by the railways after thorough consideration by those who decide on matters of policy. It is possible that they were influenced to do so by reports of a division of opinion among growers and shippers as to the value of the movement in bulk to a struggling industry. Probably the transportation companies will support their petition by statements and tables of costs designed to prove that they move such shipments at a loss. It is believed that the carriers will strongly advance the contention that the rate on apples in bulk was given to permit of assembly by processing plants and that the present widespread use was never contemplated or intended, and that in asking for its removal they are seeking to remove a canker which has developed from their willingness to assist a struggling industry. If they can convince the Commission that this is so they will be on strong ground. Failing that, they will fall back on their next line of resistance that the best defensive is an offensive and fearing there would be an application to the Board to reduce the freight rate on apples in boxes, seek to wipe out the lower rate.

Apples are apples whether they move in bins which divide railway cars into giant boxes, or individually wrapped in shrouds of delicate wood-fibre. The railways seek to wipe out the difference they themselves set up when they put the select and gentlemanly wrapped and boxed apple into a class by itself, like the chafing dish, a frying-pan that got into society.

Accompanying the Board is a select array of legal talent, expert in setting up smoke screens and in driving to the core for the fact which strengthens their contentions. These gentlemen are employed by the railways to protect and promote their interests. No doubt this personnel is chosen with the greatest care and from among the ablest men in their profession in Canada. The presence of these gentlemen will have both a wholesome and a detrimental effect. It frightens off a lot of cranks who would waste the time of the Commission, and it forms a sort of body-guard about the Commission which tends to restrain timorous individuals who might contribute something of value even if this is only the weight of public opinion.

The Commission's visit affords the apple growers of the Okanagan an opportunity to show a united front against an effort the effect of which, if successful, will be to make more difficult the marketing of their crop. Goodness knows, there are enough of these now without adding another. Apples move to the domestic market in boxes or in bulk. The rank growth of the bulk movement is having a disputed effect. Some say that without this channel a great deal less money would be received for the apple crop, the high cost of apples in boxes and the shrunken purchasing power of the people on the Prairies, being deterring factors. Against this, and in support of the view that the shipment of apples in bulk has not always had the effect of lowering costs to consumers, is the fact that sometimes apples so shipped, are boxed at destination, and sold at prices which per pound of apples is more costly and for an inferior product, a product which is killing the demand for apples.

The Commission will find it is futile to attempt to reconcile the conflict of opinion on the effect on the industry, of the movement of apples in bulk. Strong views are held on all sides. Many persons in a good position to form opinions, hold that the bulk movement is of the greatest detriment and if continued will ruin the industry. They support their views by statements which even those equally close to the industry and holding opposite views, cannot wholly refute.

It is this difference of informed opinion which has made the opportunity for the railways to ask for revision of the classification. They seek to wipe out the differential, not by reducing the freight rate on apples in boxes, to the rate of apples in bins or bulk, but by abolishing the lower rate, presumably on the grounds of abuse or a privilege and of urgent needs for increased revenues. It is cynically stated that a reduction of say 10c a box in the freight rate on apples would not benefit the producer, that it would never reach him. Why then put a further crimp into the railways' chances of profitable operation. To follow this logically through, why not give them more, if reductions in costs mean nothing, why not give them an advance, if it means nothing to the industry and so much to the carriers? This is a process of reasoning which is as fallacious as it is cynical.

No one disputes the seriousness of the predicament of the railways. At the same time the view is held in some quarters that they are where they are because they supply a service still while new agencies of transport stole business that might easily have been theirs. It is held that to grant their request is to encourage them to play blindman's bluff at a time when the clearest thinking is essential if they are to extricate themselves from their present predicament.

Objections to the railways proposals are made by a special committee named by the British Columbia Fruit Growers' Association. As an indication of the strength of its position and in the hope of securing results, this committee is asking for a reduction of the rates on boxed apples so as to bring them more on a parity with the rate on shipments in bulk. If this request is granted and that of the railways is denied, it will bring about a situation under which those who prefer to order apples shipped in bulk may continue to do so and thereby secure some monetary advantage, but not the present spread.

The position taken by the B.C.F.G.A. committee will undoubtedly be endorsed by Boards of Trade and other public bodies as well as by many individuals. And the hope entertained by every one except agents for the railways, and possibly by some of the more astute among them, is that the Railway Commission will find for them and not put itself in the position of piling on to the fruit industry a further load, in direct denial of the undeniable need of the times for lower costs.

### BEWARE THE FIRE DEMON!

ROBSON Black, Vice President of the Canadian Forestry Association, is authority for the statement that the 91 per cent. cause of forest fires is human carelessness and that during 1931 the most prolific and reckless kindler of fires was the camper, including tourists and fishermen, to whom the green woodlands should represent some personal obligation.

Almost every true lover of the out-of-doors will rise up to call Mr. Black an ugly name. The accusation is a stretch in their minds. They cannot believe it. They live their code with the rigor of a Jesuit. To them it is unthinkable. But this does not prove Mr. Black to be wrong. For there are today thousands of persons in the woods and camping beside the lakes and streams, who have no wood-craft. They are the generation of yipsters who in the teens tear wrappers off chewing gum, candy and tobacco and let the refuse fall unheeded about their feet. They create a litter and a filth unknown in other generations.

These are the people who create a hazard in the woods

## Wisdom

Wisdom hides in humble places

Every spot is holy ground.

Happy who her covert traces;

Happy who her haunt has found.

Let the seeker have a care:

He may pass it unaware.

Rock not to know her surely

By the sparkle of a gem;

Off her brow serene demurely

Wears no glittering diadem.

Idle were the aid of art;

Wisdom's worth is in her heart.

Wisdom wears the badge of duty.

Only earnest eyes and true

In her face austere find beauty

Fadeless as the heaven's blue.

Seek! Yet seek her not unless

Thou in thalidom acquiesce.

Swear no oath to serve her truly,

Trusting in the days afar

She will recompense thee duly

With bright coronet or star.

Heart must aye with hand accord;

Servant is its own reward.

—BY W. CLARK SANDERCOCK

which is a menace to every one therein and which annually causes destruction and loss running into the thousands of dollars through forest fires; who deforest and scar the lovely mountain sides; who deplete the streams of fish through the destruction of the forests; and who at the same time deny other thousands the opportunity for employment which is created by stands of merchantable timber.

Green foliage and luxuriant growth so far this season, have reduced the fire hazard to very small proportions throughout the length and breadth of the Okanagan Valley. Warm and dry days are coming and the pent up feeling will soon unloose a horde of persons to scramble and tour and to leave behind the trail of the fire demon.

What a wonderful record it would be if not one of them should leave a smoking cigarette, a dying camp-fire, or a picnic or camping ground a litter of dirty papers and broken bottles.

## What Other Editors Say

### SOMEBODY PLEASE START SOMETHING

ALLISTON HERALD:—In February, according to an official report, Canadian deposits in savings banks were \$22,000,000 more than in January.

This is extraordinary. Here we are with \$1,390,000,000 in our savings banks—this despite all the money absorbed by recent loans—which is \$22,000,000 more than we had at the beginning of the year, yet everybody is afflicted by the psychology of hard times, and most of us are too fearful to take our money out of the banks to buy things that we need.

Keeping all of this money in the bank is, of course, an indication of confidence in Canadian banks and this as opposed to the United States, where people are putting money under mattresses. Yet three hundred million dollars put into active circulation would make a tremendous lot of difference, and at the same time leave us with a billion dollars in the banks.

It does begin to look as though one of the causes of the present trouble is that people who have money are afraid to put it to work.

### THE CHEAPEST COMMODITY

MEDICINE HAT NEWS:—"The cost of publishing The News during the year has exceeded the income derived from subscriptions and advertising. This we believe is the experience of many weekly newspapers. The newspapers are kept alive at the expense of the job departments. Many country publishers, who, if they abandoned the paper and confined their efforts to job printing, would make money, are using up both brain power and money by conferring a subscribers opportunity to imagine they are conferring a favor by reading the paper. Newspapers are the cheapest commodity, comparing values, on the surface of the earth today. And there are men who can afford a dollar for "drinks" every time they come to town, who cannot afford three cents a week for a paper."

### THE USE OF MONEY

DR. WILLIAM MAYO:—"From 1894 onwards we have never used more than half of our incomes on ourselves and our families; latterly, much less. My brother and I have put ourselves on salaries. We live within them. The very roof of my house goes out of the possession of my family when of my house goes out of the possession of the family. I would not want my children deprived of the fund and the benefit of waiting something and going out and fighting to get it. And, I think, from the rich men with whom I have talked, that this idea has penetrated far more deeply into American life than many imagine."

## Ten Years Ago

(From The Vernon News, Thursday, June 8, 1922)

Mrs. A. J. Doull was unanimously elected Honorary President of the Anglican Women's Auxiliary at the annual convention held at Ponkleton last week. S. C. Smith left for Vancouver on Monday, where he will attend the funeral of his sister-in-law, Mrs. D. C. Smith. The many friends of William Wilson, of the Vernon High School staff until a short time ago, when he was transferred to Cranbrook, will be pleased to learn that he is the father of a son. All of us are glad to hear of the birth of a new member to the Okanagan Centre was greeted on Sunday by a letter from the death of Joe Wentworth, a well-known bachelor resident in that district since 1910.

## Twenty Years Ago

By-laws to borrow \$8,000 for an automobile chemical fire truck, a \$5,000 for cemetery extension purposes, were carried by good majorities on Monday. R. Swift and J. Hope have entered into partnership in the real estate business. James G. Shumma, and Miss Dorothy Burney, two very popular young people of this city, were united in marriage by the Rev. C. A. Seagar in All Saints' Church on Saturday.

## Thirty Years Ago

(From The Vernon News, Thursday, June 5, 1902)

H. Mark has been circulating a subscription list this week with the laudable intention of trying to introduce the "Bob White" quail into this district. D. Graham has just about completed the construction of a fine residence on his Spallumcheen farm. Work is well under way on the new crematory at Armstrong, and the plant should be ready for business in a short time. The Methodist church was filled to capacity last Sunday evening when the Rev. J. P. Westman delivered his farewell sermon.

## Forty Years Ago

(From The Vernon News, Thursday, June 9, 1862)

The Rev. Thomas Neville has arrived to take charge of the Methodist Church here. The first kiln of 45,000 bricks was opened at the Vernon brickyard on Tuesday. One gray, one brown, and two black bears were killed by an Indian last week up Harris Creek. J. A. Nesbitt is a new settler in the White Valley district. R. D. Irvine, late of Forty Moody, arrived on Friday to assume his duties as teacher of the Vernon Public School.

## Discipline, Co-operation and Self-Sacrifice Re-making Italy

F. M. Black Tells of Observations and Information Obtained During Visit

Discipline, co-operation, and self-sacrifice are the watchwords in modern Italy, declares F. M. Black, former Chairman of the Committee of Direction, who has just returned to the Okanagan after several months spent in Europe, and who in the course of an interview with The Vernon News on Monday made many interesting observations with regard to the Fascist regime. Mr. Black was a guest at the Rotary Club luncheon here.

The principle existing in Fascist administration, explained Mr. Black, is to have control from above. First there is the cabinet, then the Senate, an appointed body, and the House of Representatives. The King, who is loved by the populace, is very much akin to the British crowned head, with limited powers and authority.

It is in the great Fascist Council, comprised of the cabinet, and leaders of the Senate and House of Representatives, where legislation is originated. Opposition of a purely political character is impossible in the House. Italy is divided into sections of producers, each with two sub-sections representing employers and employed. There are seven main sections, representing agriculture, industry, trade, land transport, water transport, the professions, and national societies.

Selection of Parliament—These sections submit 1,000 names to the Fascist Council as prospective House members. There is duplication of nomination in many instances, and the Council has little difficulty in preparing a final slate of 400, which is submitted to the electorate, to become the parliament.

The symbol of Fascism is the bundle of fasces tied together, with an axe. In union there is strength. There are no factions in the House of Representatives and criticism of ministerial programs must be constructive.

In its resources Italy is really a poor country, stated Mr. Black. It has neither coal, iron, nor steel. Its water power is consequently widely used, and has been marvellously developed. Canadian apples are shut out, and the wheat quota is against Canada.

The Italians, he said, are particularly virate at the appropriation of territory to the cause of the Great War. Across the Mediterranean lies French Tunis, a sore spot.

When Mussolini Retires—Mussolini undoubtedly commands the respect of the people, declared Mr. Black, but contrary to the foreign conception, he is not so vital to the regime as it is believed. He is rather the product than the creator of the Fascist.

Such an organization has been perfected that even if Il Duce were to retire from the scene, the Council could carry on. Men of outstanding capabilities are ready to continue the task.

In fact, Mr. Black expressed the opinion that Mussolini may voluntarily retire at the end of ten years of activity. Terrible conditions prevailed following the war. Rotteness characterized the government. Ultimately groups of public spirited men united to improve conditions. The Fascist organization was the upshot.

After ten years Italy is orderly and progressive. "The streets of Rome," remarked Mr. Black, "are quieter than those of British Columbia cities after nightfall."

An Austere Morality—Mr. Black stated that an austere morality is being developed. Religion is part of the school program. Only once during his sojourn in Italy did he see a boy with a cigarette in his mouth. There are fewer beggars to be seen there today than on the streets of Glasgow or London.

After ten years of life Fascism shows no signs of weakening, continued Mr. Black, and it is bound to endure for some time. One great reason is that school children are being trained to it in school bands, then in bands for youths, then in organizations for Fascists from 18 to 21, and finally as adult Black Shirts.

The one great thought permeating the administration, and the entire culture, is such that there is self-sacrifice coupled with co-operation, directed toward the betterment of the race.

Restricts Emigration—Other nations, including Italy, have heretofore been pleased to lose their uncultured classes. Criminals have even been encouraged to emigrate. Such is not now the policy of the Fascist administration of Italy.

The nation has suffered in the eyes of the world in past times, because of the calibre of its migrating population. Today the Italian emigrant must face severe tests before going abroad as a representative of the race. Criminals cannot leave the country. The laboring and lower classes will no longer compromise the emigration.

The idea to the fore is the welfare of the working man. Every effort is made to improve the general conditions. A plan has been put into operation which enables women and children, no matter how poor, to take a summer holiday at the sea-shore or in the mountains, at least once a year.

Reconciliation With Vatican—One of Mussolini's great feats, stated Mr. Black, has been the reconciliation achieved between the Vatican and the government of Italy.

In 1870, following Garibaldi's rebellion which created a united kingdom out of a group of Papal states, the Pope retired to the Vatican, and although lacking control of the states formerly held, he declined to renounce temporal leadership. After all these years Mussolini has finally reached an arrangement by which the Vatican agrees to withdraw its temporal claims, on payment of compensation totalling approximately \$1,600,000.

EWING'S LANDING, B.C., June 8.—R. Roy Houlgate, of Vancouver, was a visitor in Ewing's last week for a couple of days, being the guest of Mrs. R. W. Ford, the Fox Farm.

Mrs. P. E. C. Wood, of Vernon, paid a visit to Woodlands recently, staying over for the birthday of her granddaughter and the holiday.

Miss Wakefield went to Vernon on Friday's boat, to spend the long week end with her family there. She motored back on Sunday.

C. Orchard is in the district again for a day or two. He joined the club at Temula on Sunday. A. Walsh from the Indian School, also played in the afternoon, being the guest for the day of Mr. and Mrs. Holmes.

Mr. Collier welcomed his wife and three small children on Saturday, who came from Vancouver to join him here. For the present, they are staying in the small house on the Woodlands property.

## LETTUCE MAY MOVE END OF THIS WEEK

Meeting of Shippers At Armstrong—Decides Upon Compulsory Grading of Crop

ARMSTRONG, B.C., June 7.—A meeting of shippers representative of the lettuce-growing districts of Armstrong and Kelowna, at Armstrong on Saturday, decided to begin shipping head lettuce in carlots towards the end of this week, if, as was fully expected, the condition of the main crop should then warrant it.

About a dozen shippers, comprising practically all of those interested in this new truck development in the valley, were represented. The matter of grading was gone into very closely, and it was decided to begin grading the present season's crop at once, so that it will go out under description of first, second and third grade, though probably little or none of the last-named will be sent out at all. It was resolved to take measures to bring about the compulsory grading of the crop which was recommended last year by the fruit and vegetable inspection department at Ottawa, but upon which no action was taken. The necessity of such grading was emphasized by the experience this year with the Vancouver product in the eastern provinces. Something like 50 cars have been sent east from the B.C. coast districts this year, but owing to the fact that the coastal regions cannot produce quality comparable to that grown in the Okanagan, the result has been to give British Columbia head lettuce generally a bad name on the Montreal and Toronto markets. How inevitable this has been is illustrated by the fact that on Wednesday and Thursday of last week, the result of which was to impair noticeably the quality of the heads just then ready for shipment, though it would not affect those coming to maturity a few days later. The exceptional handling here is an almost constant one at the Coast, with inevitable results upon the general run of the product there. So marked was the difference that it was reported the Eastern markets were willing to give twice the price for Walla Walla lettuce when it was a choice between that and the B.C. coast article; although as far as Okanagan lettuce is concerned, when it is ready, it fears competition in quality with no Washington shipments.

Most of the carlot shipments from these parts will go to the big Eastern markets, and some points between, though it is likely that there will be some demand from Vancouver also. The price it is hoped may run around three dollars for five-dozen and six-dozen crates.

Kelowna's entry into this field is practically new this year, but has considerable promise. The acreage there of early lettuce is about eight acres, with a similar amount to come in in July and August, and considerable later plantings. James Knowles is taking a keen interest in the development of one of the Armstrong Chinese expert growers to superintend the work. The Kelowna growers show every disposition to work in well with those at Armstrong in regard to the regulation of the trade. No other point in the Valley has attempted lettuce growing in any considerable scale, though something in that way has been done at Oliver, but it is reported that flooding this year has done damage to the crop.

## Compare the FLAVOR

Kellogg's Corn Flakes have a crispness and flavor that no other corn flakes equal. There's even a difference in the fresh aroma when you open the packages.

For 25 years Kellogg's have been the standard of quality. When you are offered a substitute, it is seldom in a spirit of service.

Remember, every red-and-green package is sold with the personal guarantee of W. K. Kellogg: "If you don't think Kellogg's the finest corn flakes you ever tasted, return the empty package and we will refund your money."

Always oven-fresh in the inside WAXTITE bag—which is sealed—a patented Kellogg feature. Sold by all grocers. Made by Kellogg in London, Ontario.

## UNPRECEDENTED RAIN AT LUMBY

Rapid Rise of Harris Creek Leads To Fear For Safety of Several Bridges

LUMBY, B.C., June 6.—Unprecedented rain fell steadily in Lumby for 36 hours last Wednesday and Thursday, and much concern was expressed at the rapid rising of Harris Creek, so that bridges had to be watched.

A change in the weather has helped the situation quite a bit, however, and no trouble is anticipated.

Sunday was one of the finest days Lumby has had for some time, and quite a number of cars passed through with occupants enjoying the sunshine, many being bound for picnics at the Falls and other interesting spots.

Mrs. D. W. Inglis, proprietor of the Eatmore Cafe is closing the latter and launching out into business on a bigger scale, having rented Morand's Hotel.

Mr. and Mrs. Andre leaves on Saturday for Vancouver.

G. F. Frost, of the Governmental Forest Branch, passed through the district on Friday in connection with timber sales.

R. McKenna, of Vernon, was a visitor to Lumby last week.

Young Novo Derry located a swarm of bees on Cat's range on Saturday and lacking ownership, the swarm has been securely housed by W. Skermer on his farm.

L. Anderson, C.P.R. tie inspector, is busy again in Lumby and will ship out ten more cars of ties this week. The members of the Lumby and District Women's Institute at their last monthly meeting, passed a hearty vote of thanks to Mrs. Earl Genter and Miss Best for their excellent training of the children in may-pole and folk dances as carried out so successfully on Empire Day; as well as to the School principal George Falconer, who acted most efficiently as chairman on that occasion.

### Miss Ann Adam's Recipe for Bran Muffins

1/2 cup bran 1/2 cup sugar  
1 1/2 cups flour 1/2 cup milk  
1/2 teaspoon salt 1 egg  
3 teaspoons Magic 1/4 cup melted Baking Powder shortening

Mix the bran with the sifted fine dry ingredients. Make a well in the centre and pour in the milk and well-beaten egg. With the fastest possible number of strokes, blend these ingredients and stir in the shortening. Half fill greased muffin pans and bake in a hot oven, 400° F., 15 to 20 minutes. A few chopped dates, lightly coated with some of the measured flour, may be added.

Miss Ann Adam bakes her famous Muffins with Magic Baking Powder

"When selecting ingredients for my recipes," says Miss Ann Adam, cookery authority of the Canadian Home Journal, "I consider three points—economy, health value, and successful performance."

"Magic Baking Powder meets them all. I use and approve Magic, because I know it is pure, and free from harmful ingredients, and because experience has taught me that I can count upon successful results with Magic every time."

Magic Baking Powder is used exclusively by the majority of cookery experts, dietitians, and housewives throughout Canada. In fact, Magic outsells all other baking powders combined!

**FREE COOK BOOK**—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ont.

## WESTBANK WOMEN WILL IRRIGATE CEMETERY SITE

Subscription List To Be Opened And Hearty Response Is Expected From Community

WESTBANK, B.C., June 6.—The Westbank Women's Institute met in the Community Hall last Tuesday afternoon, with the President, Mrs. Stevens, presiding. There was a record attendance of members and visitors at this meeting, some fifty or more being present.

Among other things which came up for discussion by the meeting was the matter of irrigation for the cemetery, which was reported on by Mrs. H. Moffat and Mrs. C. J. Tolhurst, to the effect that approximately \$100 would be required to lay water on to the grounds in question. As this is a matter of particular interest to the community as a whole, the President offered a suggestion to the effect that if a subscription list were opened both individuals and organizations throughout the district would be only too glad to subscribe to such a worthy cause.

After the routine business was completed, the President called on Mrs. D. Gellatly, convener for the program of the afternoon, arranged by the "east group" and which proved to be a demonstration by the "Little Mothers' League" class, under the supervision of Miss G. Hill, V.O.N. This class in mothercraft was started by Miss H. E. Barton, V.O.N., before her resignation and was taken over by Miss Hill upon her arrival here in April.

The girls are to be commended for what they have done, and the demonstration, was enjoyed by all. Mrs. Stevens next presided each girl in the class with her diploma and expressed her appreciation at the manner in which the girls had acquitted themselves, adding that both Miss Barton and Miss Hill are to be congratulated on their success.

A "nursery" for the wee tots was tried out at this meeting, thus allowing many of the mothers to attend who are so often forced to remain away. The Institute hopes to be able to arrange this nursery at every meeting and to finance it from the treasury, as it turned out to be entirely successful on this occasion.

The members of St. George's Anglican Women's Auxiliary held their regular monthly meeting at the home of Mrs. M. J. dePuyffer on Thursday afternoon, June 2. Final plans were completed for the concert to be given in the Community Hall on Friday, June 10, by the choir of St. Michael's and All Angels, Kelowna.

New Puckling House Manager  
Mr. Witt, of Kelowna, took over the management of the Westbank Co-operative Growers' Puckling-house at the beginning of the month, in place of M. J. dePuyffer, who has been the manager for the past six or seven years.

Mr. dePuyffer has done a great deal for Westbank during the years he has been here, and in particular has worked tirelessly and enthusiastically towards the actual realization of the Westbank Community Hall. To him belongs a very great deal of the credit of building this hall, thus giving the district a hall suitable for sports as well as dances and meetings.

Since and good wishes for the future are extended to Mr. and Mrs. dePuyffer by their many friends here. The Board of Directors of the Co-operative Growers held a meeting on Saturday evening, June 4, with the manager, Mr. Witt, in attendance.

Miss M. N. Mossy, teacher of the grade room, spent the holiday and week end in Summerland, the guest of Miss Margaret Ritchie.

P. S. Dickenson, the principal, motored to Nelson over the week end, accompanied by Bert Prior.

Mr. and Mrs. Lightly, accompanied by two of their daughters, arrived from Saskatchewan on Saturday and plan to settle in the district.

The honor roll for the grade room for the month of May, Miss M. N. Mossy, teacher, is as follows: Grade 1, Gwyneth Rees and Annie Griffin; Grade 2, Hilda Schurke and Dorothy Bushman; Grade 3, Mavis Penton; Grade 4, Margaret Rolke; Grade 5, Velma Currie.

**Westbank Nine Loses**  
Fourteen baseball players motored from Pentiction on Sunday to play a return game with Westbank, and were apparently determined to triumph over their victors of last Sunday. They were not disappointed. Had holding was partly responsible for Westbank's 20-0 defeat, but the home team hope to avenge themselves next Sunday.

A game between Kelowna and the Westbank Indians was played on the Reserve on Sunday afternoon, the victory going to the visitors with a score of 9-4.

### Underweight?

"My baby was so thin his hands were like bird claws. But he thrived wonderfully after I started giving Baby's Own Tablets," writes Mrs. L. Kennedy, Portland, Ontario.

Baby's Own Tablets help to regulate stomach and bowels, and the thin child gains weight. Absolutely safe. 25c package. 75c Dr. Williams' Baby's Own Tablets

## Experimental Farm Picnic Enjoyed By 2,500 Visitors

Sports, Demonstrations and Cattle Show Great Success

SUMMERLAND, B.C., June 6.—The fifth annual picnic was held at the Experimental Station on Friday, June 3. It is estimated that about 2,500 people attended, and that there were between 450 and 500 cars on the grounds. Though the prevalence of wet weather a few days preceding no doubt cut down the attendance considerably, it was considered a very successful picnic in every way.

Children's sports were held from 10:30 in the morning to 12 noon. Following is the list of races and prize winners: Girls under 6 years, 20 yards, Hilda Killick; boys under 6 years, 20 yards, Jack Annin; girls under 8 years, 20 yards, Rena Ritchie; boys under 8 years, 20 yards, Charlie Dodwell; girls under 10 years, 40 yards, Jack Stallard; boys under 10 years, 40 yards, Donald Coy; girls under 12 years, 50 yards, A. Millership; boys under 12 years, 50 yards, Geo. Clark; girls under 14 years, 60 yards, Florence Stark; boys under 14 years, 60 yards, Fred Schwass; girls under 16 years, 75 yards, Kathleen Sullivan; boys under 16 years, 75 yards, Fred Schwass; girls under 18 years, 100 yards, Helen Christie; boys under 18 years, 100 yards, Jack Butler; girls three legged race under 15 years, May Littlejohn; boys three legged race under 15 years, H. Forster; Geo. Powell; Wheelbarrow race, under 15 years, May Littlejohn, H. Forster.

**Good Ball Games**  
The baseball tournament was a gratifying success, the four International League teams competing. The towns are supporting their teams well this year, and more interest is being taken in baseball in this end of the Valley than for many years.

Oliver defeated Summerland 6-0 in the morning game. In the first afternoon game Pentiction disposed of Oroville to the tune of 12-5. The final game was real baseball. Pentiction eventually defeating Oliver 6-5 in the evening innings. The consistent pitching of McLain for Oliver, and Cousins for Pentiction, were features.

The softball games were keenly contested. The first game was in the morning between Peachland and Summerland High School girls. The game was close and exciting, Peachland winning by one run. In the afternoon Pentiction girls played Kelowna High School, and Summerland High School, and they were victorious in both games.

**Putting Green Popular**  
The 18-hole, grass putting green is always a popular spot at the picnic. A score of 54 is considered par, and the winners in the competition were: Mrs. Alex Smith, 58; Mrs. K. P. Caple, 60; A. Bashum, Pentiction, 51; J. Lawler, 53.

There were lawn bowling entries from Pentiction and Summerland and the Pentiction rink made up of Eddy, J. Powers, Garner and A. Heal, were high, with 29 shots. The runners-up, who tied with 23 shots were a Summerland rink, Mrs. Bashum, William Ritchie, P. Seymour, B. Newton, and a Pentiction four, Mrs. Robinson, F. Price, J. Whitehead, G. Robinson.

**Fine Cattle Shown**  
Though some fine animals were exhibited in the Parish Jersey Cattle show, there were fewer entries in even class than previous years. The committee in charge were George S. Drewitt, President of the local Jersey Club, Capt. A. M. Temple, Secretary of the local club, and James Aitken, of the Experimental Station. The Judge was George Challenger of Kamloops. The prize winners were as follows:

Class 1, Junior Bulls: Summerland Roseland, Dominion Experimental Station, and one, Penney's Lady, Reid, Shannon. Class 2, Senior Bulls: Chalmers Jersey Volunteer, J. M. Landry; Bellerive Prince Forward, J. M. Landry; Oxford Sultan's Standard, Dominion Experimental Station. Class 3, Junior Heifer Calves: Princess Pearl 2nd, J. M. Landry; Roseland's Ellen, Reid, Shannon; Roseland's Ruby, Geo. S. Drewitt. Class 4, Senior Heifer Calves: Brampton Royalist, Donald Orr; Brampton 7-1, P. Munro; Hamlet's Phawnee 2nd, Dominion Experimental Station. Class 5, Junior Yearlings: Bellerive Mary, J. M. Landry; Hamlet's Tiny, L. A. Pomeroy; Hamlet's Mercury, Reid, Shannon. Class 6, Senior Yearlings: Summerland Hamlet Madde, Dominion Experimental Station; Bellerive Hamlet's Beauty, J. M. Landry. Class 7, Young Cows, 2 years old and under 3 years: Bellerive Lady Kate, J. M. Landry; Hamlet's Ann, Reid, Shannon; Hamlet's Phawnee, Dominion Experimental Station. Class 8, Aired Cows, 3 years old and over: Princess Pearl, J. M. Landry; Lakeland Sybil, P. Munro; Summerland Hamlet's Agatha, Dominion Experimental Station.

**Landry Animals Predominate**  
The Grand Champion Cow, which is probably the best cow in Canada today, was declared Princess Pearl 2nd, owned by J. M. Landry, whose Princess Pearl 2nd was also Reserve Champion Female. The Grand Champion Bull, Chalmers Jersey Volunteer, also belonged to Mr. Landry.

During the day, Stephen Rogers, who is here from England during R. C. Palmer's absence in the Old Country, demonstrated root growth to any interested persons, and showed the workings of an instrument called a "moisture-recorder" which registers the amount of moisture in the ground. The entire staff was on hand to demonstrate the work of their various departments and all were genuinely helpful and courteous.

## Vernon Elementary Schools Honor Roll

Grade 7  
Divisions 3, 4 and 5—Norma Kinard, Melville McMechan, Lynette Dawe, Ruth Joe, Stuart Gilbert, Lorraine Reinhard, Mary Campbell, Vivian Smith, Donald Larson, Eileen Brown, Barbara Dave, Nancy Bowen.

Grade 6  
Divisions 6 and 7—Kathleen Reid, Paul Lim Yuen, Catherine Kugler, Doris Jakeman, Eric Bennett, Joan Oliver, Billy French, Jim Pearce, John Medcalf, Betty Wright.

Grade 5  
Divisions 8, 9 and 10—Virginia Nafel, Barbara Smith, Mary Lommer, Dorothy Caryk, Margaret Everitt, Annie Zaporozon, Ken Cullen, Sophie Martin, Ruth Ley, Jimmy Portman, Gwen Patterson, Anne Beddome, Eileen Price.

Grade 4  
Divisions 11, 12 and 13—Billy Ship-pit, George Mayrhofer, Alice Oliver (Roland Hamlin, Barbara Godfrey), Frances Roberts, Donald Weatherill, (Keith Pearson, Norman Tonks), (Billy Knox, Edmund Kwong), (Toki Hoshizaki, Annie Portman), Peggy Salt, (Mary Carter, Alfred Sengotta).

Division 15—Marion Baverstock, Josephine Dull, Anna Phelps, Edward Barraclough, Ernest Billard. Division 16—Mary Conroy, Gerald McMechan, Vera Holmes, Margaret Lomorgan, (Malcolm Land, Laura Joe).

Grade 2  
Division 17—Pearl Cucheron, Neil Henderson, Alveen Dull, June Ross, Viola Ross. Division 18—(Mylene DeBeck, Jean Kerr), Eva Geiger, Bridget Pearce, Arthur Hryenko. Division 19—(Mary Lommer, Thora Swanson), Lila Shaver, Mary Zelbel, (Doris Wylie, Joy Knox).

## PLACER CLAIMS ON CHERRY CREEK ARE BEING EXAMINED

Messrs. Kerby & Connelly, of Auburn, Wash., Spent Several Days There

HILTON, B.C., June 6.—I. Johnson, who suffered a severe hemorrhage of the nose is confined to hospital for a few days. Messrs. Kerby & Connelly, of Auburn, Wash., spent several days examining placer claims on Cherry Creek.

Messrs. Sugar & Fox were visitors to the district last week. Charlie and Ivor Hanson spent the week-end with friends at Mara.

## GRADER IMPROVING KEDLESTON ROADS

KEDLESTON, B.C., June 4.—The grader was at work on the Kedleston road last week, as far as A. C. Wilward's place.

Roy Clark, of Winfield, is visiting his sister, Mrs. L. Howden, for a few days. A party of young people on horseback were up to the B.X. Falls on the Friday holiday.

## JANE STEPS OUT ON MONDAY — by C.A. Voight

## WHY ROMANCE PASSED HER BY... by ALBERT DORNE

AT LAST HER NEW SISTER-IN-LAW FRANKLY TOLD HER HOW SHE WAS OFFENDING—

—AND HOW EASILY LIFEBOUY WOULD CORRECT HER FAULT

NOW SHE IS HAPPILY MARRIED. THANKS TO LIFEBOUY'S SURE PROTECTION "B.O." IS NO LONGER A PROBLEM

**DON'T RISK "B.O."**  
THE merest hint of "B.O."—body odor—ruins a girl's charm, a man's attractiveness. It's so easy to be guilty and not know it, because we quickly get used to an ever-present odour. Play safe! Wash and bathe always with Lifebuoy for extra protection. Its searching lather deadens pores—ends "B.O." danger. In pleasant, hygienic scent—that vanishes as you rinse—tells you Lifebuoy purifies.

Try this "facial"  
Every night, massage Lifebuoy's creamy lather into the skin. Then rinse. Your complexion will freshen and glow with healthy beauty.

## With ORCHIS FACE POWDER a Gift of Orchis Perfume

Your Yardley dealer has a gift for you this month of June—a gift of Yardley Orchis, sweet distillation of the blended fragrances of an English floral garden. He is authorized to give you this fascinating perfume with your purchase at the regular price of \$1.00 of Orchis Complexion Powder. You'll love the Powder. It is so exquisitely fine... the odor so alluringly different—\$1.00 at all good drug and department stores.

## WATER DISTRICTS REORGANIZED IN ARMSTRONG AREA

Formal Establishment of Three New Districts Expected in Near Future

ARMSTRONG, B.C., June 7.—Representatives of the Lansdowne, Highland Park and Round Prairie water districts met at the City Hall on Monday night, when the draft of the letters patent to be submitted to the Lands Department, for the formal establishment of these respective districts, were submitted, and also the draft of the agreements to be entered into respectively by the districts with the Armstrong City Council, providing for a supply of water from the city mains. The drafts were in each case approved and will be sent forward immediately, after which a formal meeting of each district will be held for their ratification, and the election of trustees. Other Lake and Pleasant Valley districts have already approved of the drafts in each case, so that the whole of the reorganization of these outside districts will shortly be completed.

H. H. Evans, District Agriculturist, of Vernon, came to Armstrong on Saturday, and gave a thorough spraying with different strengths of "Atlaside" weed-killer to the peppergrass and other noxious weeds on a badly infested farm on the Pleasant Valley road. The results will be noted carefully with a view to future guidance in dealing with the very serious weed trouble in this district.

The report of the Public Library for May shows that although the issue of fiction had fallen off as compared with May, 1931, by 604 volumes to 676, this had been more than balanced by the increase in non-fictional issues, from 156 to 289, so that the total circulation had increased by 61 volumes.

There were good representations from Vernon and Falkland, as well as from Armstrong, at the first practice shoot by the members of the Rocky Mountain Range-Rifle Association on the open range this year, on Sunday afternoon. For the first occasion the work done was not bad, taken all round, but with the first of the four summer D.C.R.A. competition shoots taking place next Sunday afternoon, it might have been wished better. The trouble has been with the Esquimaux depot, which has been lagging in supplying the promised ammunition that should have been in hand weeks ago, and had not even yet arrived on Sunday, so that it was necessary to borrow for the occasion.

The Armstrong W.C.T.U. unfortunately chose the drenching Wednesday afternoon of last week for a picnic visit to Mrs. Horne's residence under the mountain. Two full carloads went out, nevertheless, and were most hospitably received, nor did they allow the rain to deter them from an inspection of the very lovely garden. The business part of the meeting was chiefly concerned with the Summerland conference this week, to which Mrs. Mills, Mrs. Ball, Mrs. Moore and Mrs. Aslin were appointed as delegates.

Off with the old: on with the new—at 50 miles an hour. Members of the English A.S.C. motorcycle squad do a bit of daredevil wheel changing as part of their tournament rehearsing.

## ORCHARDISTS MAY KILL DEER WHICH HARM FRUIT TREES

Hon. J. W. Jones, in Conferring With Peachland Delegation, Confirms Legal Ruling

PEACHLAND, B.C., June 5.—The Hon. J. W. Jones, Minister of Finance and representative for South Okanagan in the provincial parliament at Victoria, paid an informal visit to town Thursday morning. He was met by the executives of the Conservative Association and the Board of Trade. He expressed himself as being well-pleased with the condition of the roads all through the district, and gave his assurance that the roads would be oiled as they had been last year. He was surprised at hearing of the damage done by the deer in the orchards last winter, and stated that the attorney-general had given authority to the farmers to shoot any deer boistering their orchards. He discussed provincial matters briefly and explained the difficulties which the government were trying to overcome.

On Thursday afternoon the irrigation committee, R. H. Harrington and C. C. Highway, accompanied by Reeve Grant Lang and C. C. Inglis, went to Kelowna, where, along with representatives of Water Boards from other districts in the Okanagan, they interviewed the Hon. J. W. Jones, and George Heggie, member for North Okanagan, regarding irrigation matters. The conference went on record as being in favor of the adoption of the Dr. Geddes report.

**Summerland Defeated**  
Last Thursday evening, the local baseball team went to Crescent Beach to play the Summerland team. They were disappointed in having only a second grade team put up to them, as the regular Summerland team were saving their energies for the following day. However it gave the local boys a little practice and they scored 16 runs to Summerland's 2.

The Women's Institute benefited by a splendid demonstration of the attachments of a sewing machine at the home of Mrs. W. D. Miller on Wednesday afternoon. The attachments were demonstrated in a practical way by Miss Scott, who showed how they were fitted and adjusted and the many uses to which they could be put.

**Mrs. Hogg Buried**  
The funeral of the late Mrs. R. J. Hogg was held from the United Church, Monday, May 30, at 2 o'clock, with the Rev. D. Scott in charge of the service.

Interment was made in the Peachland cemetery.  
The late Mrs. Hogg was born in Ontario, 78 years ago, and was a niece of Sir Oliver Mowat. She had resided in Peachland for 25 years and was always an influence for good in the community. She was an active worker in the Presbyterian Church and later entered wholeheartedly into the work of the United Church, being president of the Women's Association for several years.

Word has been received here of the sudden passing of Mrs. Jack Lang, of Kelowna, after a short illness. Mrs. Lang, who was formerly Doris Crookes, lived for a good many years here, where she went to school, and general regret is felt in the community at her loss.

**CALGARY LIVESTOCK**  
CALGARY, Alta.—Beef receipts were again on the light order, with trading not active. Steers, choice heavy, brought \$4.75 to \$5.00; choice light \$5.00 to \$5.25; good \$4.50 to \$4.75; medium \$4.00 to \$4.50; common \$3.50 to \$4.00. Choice heifers \$4.25 to \$4.75; good \$3.75 to \$4.25. Choice cows \$3.00 to \$3.50; good \$2.75 to \$3.00; medium \$2.25 to \$2.50; common \$1.50 to \$2.00. Choice bulls \$1.50 to \$2.00; medium \$1.25 to \$1.50. Choice light calves \$5.00 to \$5.50; common \$2.00 to \$3.00. Sheep, yearlings \$4.00 to \$4.00; ewes \$3.00 to \$4.00; lambs \$6.00 to \$8.00. Hogs, butchers \$3.60; select \$4.10; butchers \$3.10.

## RUTLAND SPORTS PROGRAM DRAWS BIG ATTENDANCE

Visitors From All Parts of Okanagan Enjoy Athletic Events On King's Birthday

RUTLAND, B.C., June 6.—The eleventh annual celebration of the King's birthday, held at Rutland school-field on Friday last was a very successful affair, visitors coming from all parts of the Okanagan to see the sports and to join in the big dance in the community hall in the evening.

The weather man was in a very favorable mood, the weather changing from dull and rainy to clear and warm overnight, to provide an ideal day for the sports.

The program, which was a very full one, was in the charge of the Rutland Athletic Club and no less than 9 field games were played, in addition to races and jumping for boys and girls up to 16 years, and two open events, the 100 yards and the 440. The program was continuous from 8 a.m. until 7:30 p.m., except for a three-quarter hour break for lunch.

Refreshment and ice cream booths were operated by the Women's Institute and did a roaring trade throughout the day. The dance in the evening was a huge success, the community hall being packed.

The proceeds of the day will be pooled and the net, after all expenses are met, will be equally divided between the Athletic Club, Women's Institute, and Community Hall. Other organizations assisting were the Farmers' Institute, who operated the side shows, the C.G.I.T., who ran a "hot dog" stand and the Scouts and Guides, who assisted at the various booths and side shows.

It is expected that the net proceeds will exceed \$200, a very satisfactory amount in view of present day conditions.

The day's program began with a Junior league baseball game between Rutland and Kelowna—Junior—High School, which showed a good brand of ball, seven snappy innings resulting in a win for the home team by 8 runs to 7.

**Softball Tourney**  
Next came a softball tournament, with 5 teams entering, Rutland, Ellison, Glenmore, Kelowna Knights of Columbus, and Rutland Young Catholics. In the first round Ellison defeated the Young Catholics 14-11, while Glenmore won from the Knights of Columbus 10-2. In the second round, Ellison defeated Rutland by 22-8, while Glenmore defeated Ellison in a close and exciting contest by 13-12, the full nine innings being played.

While the men's softball tournament was in progress a girls' game was being played on a different part of the field, Rutland's entry easily defeating a Kelowna team by 33-8. The only disappointing feature of the day was the failure of the Kelowna Hornets to field a team to meet Oiyama in a Central Okanagan league fixture. To fill the gap a scrub team of Kelowna players and others was organized and to the surprise of all a really good 5 innings contest was played, which resulted in a win for Oiyama by 2 runs to 1. The batteries in this game were: Oiyama, Wynne and Crawford; Kelowna, Roth and Leir.

The next game was a league game between Rutland and Winfield, which the home team won by 11 runs to 7. As the score indicates, the play was not high class, but the game had many exciting moments.

**Spirited Football Game**  
The final event of the day was a football game, between teams from Kelowna City and East Kelowna. This was won by the former by 3 goals to 2 in a very spirited encounter, which lasted almost until darkness came upon the scene.

In the intervals between games time was found in which to run races for children from 6 years of age to 16, and in addition two open events, the winners of which were: 100 yards, Rudolph Kusch; 440 yards, Roy Bush; Ken Bond.

In the pole vault, 16 years and under, A. Duncan was the winner, clearing the bar at 9 feet. D. Scott, of Kelowna, was runner up.

The Rutland Troop of Boy Scouts held a week end camp, June 4-6 in the valley of Mission Creek, below the oil well, quite a number of outdoor tests being passed, particularly "tracking" and "cooking" tests.

**United Church Anniversary**  
The congregations of the Bonaville, Glenmore and Rutland United Churches held their annual union service in the Rutland church on Sunday evening, the pastor, Rev. A. McMillan, delivering an appropriate and forceful sermon for the occasion.

Mrs. William Hardie left on Saturday by C.N.R. for Vancouver, where she will spend a three weeks' holiday with relatives.

**Leaves For Peace River Country**  
The district loses a promising young athlete in the person of John Fisher, who left Friday morning for Whitelaw, in the Peace River district, to accept a position in a grocery store there, which has been offered him. A keen basketball and baseball player and an energetic patrol leader in the Boy Scouts, his loss will be keenly felt.

Sunday's softball games resulted in a win for the Young Outdoles from the Tigers, while a re-juvenated Bull Dog team won an unexpected victory from Ellison.

## SALMON ARM BEATS LAVINGTON ELEVEN

Visiting Cricketers Make 103 For Seven Wickets—Lavington Batsmen Score 87

LAVINGTON, B.C., June 6.—The Lavington cricket team, playing on their home grounds last Sunday afternoon, lost to Salmon Arm, Lavington batted first, making 87 runs, and the visitors pushed this total to register 103 for 7 wickets.

Mr. A. O. Humphreys, of Vernon, was in this district last week on business. Richard Mackey returned last week from a vacation at Coast points. Richard Locke returned on Thursday last by motor from the University of British Columbia.

Mr. and Mrs. W. C. Bunting were visitors to Lavington on Saturday. Mr. Bunting, of Vernon, was a visitor for a few days at the Bradgates Ranch recently.

The rain and wind storms of the past week have been very unfavorable for spraying and haying. Game Warden Still was in the district on Sunday on duty.

## HOSPITAL DAY AT ARMSTRONG WELL ATTENDED

Many Visitors Inspect Institution Despite Poor Weather On Annual Occasion

ARMSTRONG, B.C., June 6.—The annual hospital day was observed at Armstrong Hospital on Saturday, amid somewhat unsummerlike weather, which was yet not bad enough to prevent the usual service of tea upon the lawn, which was arranged by the members of the Women's Institute. Flowers were sent by many friends of the hospital, and added much to the appearance of the institution, all the rooms of which were open to the inspection of visitors. Happily there were but a very few patients in the hospital at the time, and none of the cases serious so that there was nothing to mar the pleasure which the large number of visitors enjoyed in their inspection of it, and very merry parties gathered around the tables on the lawn throughout the afternoon. The Merry-makers Orchestra played and several ladies sang from the lofty verandah. The ladies taking part in the programme were: Mrs. J. Phillips, Mrs. Jamieson, Jr., and Miss Viola Warner. The visitors were received by Miss Fairley, the superintendent, and the wives of the medical staff, past and present, including Mrs. Tennant, Mrs. Calvert and Mrs. VanKleeck.

**MY DAILY DESIRE**  
To awaken each morning with a smile brightening my face; to greet the day with reverence for the opportunity it contains; to approach my work with a clear mind; to hold ever before me, even in the doings of little things, the ultimate purpose towards which I am working; to meet men and women with laughter on my lips and love in my heart; to be gentle and kind and courteous through all hours; to approach the night with the weariness that ever woos sleep and the joy that comes from work well done—that is how I desire to waste wisely my days.—Author Unknown.

HEAVY RAINS SWELL RIVER

Father Thames in a fury. An unusual photo of the river at Pangbourne Weir, England, as it almost reached the flood mark, due to recent heavy rains. No damage was done.

## Greatest Handicap to Industrial Development, Freight Arbitrary Protection for Eastern Interests

Alex. Stewart, Lumberman, of Canoe, Discusses Freight Rate Structure

"The greatest handicap in the way of industrial development in this province is our freight arbitrary," declared Alex Stewart, lumberman of Canoe, in addressing the members of the Rotary Club at their regular Monday luncheon on the topic, "The Western Trend of Canadian Industry."

Stewart stressed the immense potentialities of British Columbia, particularly as regards the exploitation of vast reserves of natural resources. Mr. Stewart pointed out that freight rates as industry's greatest bogey west of the Rockies, and declared that they constitute the drawback to general progress. He also raised the question as to their purpose.

"Are our freight rates based absolutely on the mileage or are they zoned in such a way as to corroborate the statements made by many producers that they are protective to a marked degree to large Eastern interests?" he asked.

"Prior to the forming of the Railway Commission of Canada, and the Interstate Commerce Commission of the United States, freight rates were a matter of competition rather than of mileage," he continued. "This worked out to very good advantage at competitive points, but proved a severe handicap to that portion of the country which had no competitive lines. Now, under the Railway Commission of Canada, and the Interstate Commerce Commission, we are supposedly under a freight classification which is absolutely a matter of mileage, but British Columbia carries a freight arbitrary over and above the regular rate known as the Mountain Tariff."

Quoting from Western Tariff 5025 and Eastern Tariff 113A, using the tenth class or B rate in comparison, Mr. Stewart gave some interesting information.

"You here are situated about 350 miles from Calgary," he said, "which we will use as a base. You have a tenth class rate of 32 cents. On the same mileage you would be favored in Eastern Canada with a 21½ cent rate."

"The export rate from the Ottawa Valley to Quebec is 17 cents," he continued. "Let us take the eastern haul, using Toronto as a base. The Interior of B.C. is based on what is known as the Spokane rate plus 2½ cents. Our rate to Toronto amounts to 83½ cents. If you take that strip of the lower peninsula running from Toronto to Windsor, and in a line running from approximately 40 miles north of Toronto, west to Sarnia, you will have the territory or zone covered by the 83½ cent rate."

"The distance from Toronto to Windsor is 225 miles. North of this line there is a good manufacturing belt in the towns between Wingham and Owen Sound, but there the freight arbitrary comes against us, for Wingham, though only 114 miles west of Toronto, takes an 88½ cent rate, and Owen Sound, a very strong manufacturing centre, 38 miles east of Toronto, takes an 88 cent rate. New York, 339 miles east of Toronto, has the same rate as Wingham, 88½ cents. The mileage from the Interior to Toronto, or to Pembroke, Ont., in the Ottawa valley, is approximately the same in either case, but you must let our lumber into the Ottawa Valley, and so the rate to Pembroke goes up to 87 cents."

"But the greatest farce of all," declared Mr. Stewart, "as far as the Interior is concerned, is the so-called Panama competitive rate from the East Coast, supposedly in competition with the canal, where they haul through to Vancouver at the Panama rate and back haul into the Interior at the mountain rate. In order to comply with their freight classification they actually haul a car 700 miles for nothing in order that you may have the privilege of paying for it."

"And what have we in B.C. to offer?" the speaker remarked. "We own the last great stand of timber in this country, and through reforestation it will go on and on in continuity for generations. Our known deposits in coal are estimated at six million tons. We have iron ore and magnetite in abundance, and our best known deposits are within twenty miles of coal by water. We are the largest producers of lead on the continent, and the second largest of copper. There are in British Columbia showings of every metal known in North America."

"In this province," he continued, "you can find proven beyond a shadow of a doubt every requisite for industrial development."

"Our home market consists of the entire provinces of Saskatchewan and Alberta, and the Peace River area. Our foreign markets are the Orient and the Antipodes. These are and will continue to expand, and we in this province are very favorably located to see that inhabit any other section of Canada."

From information gained from unbiased and authentic sources, Mr. Stewart stated that in his opinion the near future would be characterized by a commercial trend toward this province.

In order to form some estimate of what we may reasonably expect to see in the way of industrial development, it would be helpful to go back and trace manufacturing progress in Ontario and Quebec," said the speaker.

He stressed the fact that Ontario's commercial growth was roughly from 1802 to 1920 in its most rapid phases. Prior to the turn of the century agricultural interests were predominant.

Once a Wilderness  
That section of Ontario north and west of North Bay, which comprised nearly two-thirds of the province, was once looked upon as more or less of a barren wilderness, but men of great foresight pushed the Timiskaming and Northern Ontario Railway northward, and the Laurier administration, then in power in Canada, built the Grand Trunk Pacific west from Quebec through another section of the country described by the pessimists as useless from any standpoint. These lines showed a lot of criticism, just as your startless, endless P.C.E. is doing today. "Time, however, has proven that we were not very good judges of the other fellow's foresight or of his indomitable courage."

The construction of these Ontario lines led to the discovery of the world's greatest silver deposits, commented Mr. Stewart, and of other valuable finds. The hundreds of square miles of black spruce in northern Ontario, too small for commercial purposes, became the nucleus of the paper industry. The country was well watered and it had unlimited undeveloped water power. The removal of timber in many cases opened up the great clay belt.

As regards the prairies, Mr. Stewart stated that it is unlikely that they will become manufacturing areas. The trend of industrial development in the United States will likely be duplicated in Canada, with the prairies predominantly agricultural.

"This province of B.C. stands today as the third industrial province of the Dominion," he declared, pointing to the ever increasing market that the prairie offers. "The consensus of opinion is that she will see a greater development in the next 25 years than any other province in Canada."

Mr. Stewart commented upon the fallacy of past times inherent in the belief that there was no place for the growing boy in his vicinity. This led to the migration of thousands of able Canadian youth to the United States, where a large proportion of them rose

## WRITER DESCRIBES ISAACS' PLAN FOR MARKETS CONTROL

Miriam Green Ellis, Winnipeg, Staff Writer For Family Herald and Weekly Star

Miriam Green Ellis, staff writer for the Family Herald and Weekly Star, who was an interested visitor in the Okanagan at the time of the annual meeting of the B.C.F.C.A. last January, and on a subsequent trip just a short time ago, has outlined the plan for marketing control as devised by D. Godfrey Isaacs, of Oyanima, in the June 1 issue of the well known publication.

Mrs. Ellis' article, which will give Okanagan developments a wide publicity, particularly on Canadian farms, is as follows:

From the membership of the British Columbia Fruit Growers' Association, a committee has been drawn to study the proposals put before the annual convention last winter by D. Godfrey Isaacs, of Oyanima, for greater producer control and more business methods in the handling of Okanagan apples and fruits. This committee named by Mr. Isaacs and verified by the executive board of the association, includes besides himself, Morris Middleton, Vernon; George Barrat, Kelowna; A. C. Lander, W. S. Harris, Vernon.

Reorganization of the industry on what he considers sound business methods, is the aim of Mr. Isaacs; it will entail reorganization of the fruit growers to cope with the resulting conditions. He would unite all growers' interests to work under an authoritative management within which would be three sub-divisions, production, business management, sale and distribution, but the three linked up under one head. Under present methods Mr. Isaacs considers there is no stability or sound control of the industry.

Whatever returns come to the grower, whether 10c or 8c a box, the shipper receives a fixed sum, says Mr. Isaacs, thereby reiterating the complaint of the stock growers, wheat growers et al. Where there should be a fixed charge for packing, he contends the selling should be done on commission and that the control of the product should remain with the producer till sold. The business organization which he proposes would look after financing, legislation, freight rates, contracts and all such; the grower would be placed on contract and a per box levy made to costs of operation. The men in charge should be well paid and responsible.

"If eighty per cent of the growers concurred in this idea and signed contracts, it would be sufficient to control the output," says Mr. Isaacs. He would not curtail the liberty of the producer to market through whatever agency he pleased, but he would leave only sale and distribution to the selling agencies, taking all other business to himself, after financing, legislation, freight rates, contracts and all such; the grower would be placed on contract and a per box levy made to costs of operation. The men in charge should be well paid and responsible.

The principal changes necessary to the present constitution of the Fruit Growers' Association would be that the executive consist of a salaried president, chairman, general manager or whatever he was called, with a limited board of directors. The directors would be elected, but the manager would be engaged for a period of years to allow him to work out a policy.

The directors and chairman should have executive rather than academic powers, says Mr. Isaacs, similar to full powers of the board of directors of a limited liability company to deal with the policies of the industry. Under the contract the grower members would relegate all authority for conduct of the business of the industry to their association. Mr. Isaacs foresees even further developments of his idea in the operation of Western with Eastern fruit, and the British Columbia Fruit Growers' Association. Since it was first proposed at the annual convention, most of the original opposition seems to have broken down, and it will at least be considered on its merits without undue prejudice.

He also foresees and hopes for a shipper exchange at Vernon, where the apples and fruits would be bought and sold as is done with wheat and other products at central points.

This proposition for re-organizing the handling methods of fruit in the Okanagan, is now being studied by the committee, which will in turn report its findings to the British Columbia Fruit Growers' Association. Since it was first proposed at the annual convention, most of the original opposition seems to have broken down, and it will at least be considered on its merits without undue prejudice.

**Mrs. Dorothy Lane**  
KELOWNA, B.C., June 6.—The death occurred on Friday morning of Dorothy Lane, aged 24, the wife of Jack Lane, who formerly resided in Vernon. The funeral services were held in Kelowna on Monday and interment took place in the Kelowna cemetery. She leaves to mourn her loss, her husband and two daughters.

That youth can stake its future upon British Columbia was the speaker's message in conclusion. He urged salesmanship as an asset to be cultivated, describing such salesmanship as an intensive study of the country's resources followed by the dissemination of facts to the rest of the world.

"You need have no fear in associating with British Columbia your own unbounded faith," he declared.

"How long has your husband been out of work, Mrs. Wingham?"  
"Well, mum, I wasn't sure of the exact year we were married."

## LEONARD NORRIS HONORED BY OLD-TIMERS' ASSOC'N.

Vernon Man Elected President At Annual Meeting of Organization

ARMSTRONG, B.C., June 6.—The North Okanagan Old-Timers' Association, membership in which is open to all residents who have been in that district for thirty years and upwards, held its annual meeting at the Armstrong City Hall, on Saturday, in the chair. Among those who attended on this occasion were Price Ellison, Honorary President, and W. L. McQuay, from Vernon, Fred Barnes, R. M. Baird and E. Bailey, from Enderby, and George Murray, Roddy Crozier, Fintan Dunne, A. T. Hayhurst, H. Harding and Tom Marshall, Secretary, from Armstrong and Spallumcheen.

The chairman said no rules had been framed to govern the Association, but at the annual banquet last year, the basis of membership was agreed upon, and it was decided that the Association should do its best to advance in any way that it could the interests of the old-timers. Practically all there was before the meeting was the election of officers. It had been decided

that the office of President should be changed around from year to year among the districts included in the North Okanagan, but that it would be best to hold the banquet in Armstrong each year, at the time when so many of the members would be gathered there for the Interior Exhibition. The membership fee was formerly two dollars, but after some discussion, it was resolved that the inclusive subscription should be reduced to a dollar.

Leonard Norris, of Vernon, was elected President; Fred Barnes, of Enderby, Vice-President; and Tom Marshall, of Armstrong, Secretary. The committee was re-elected as before, with the substitution of Fintan Dunne's name for that of Donald Graham, upon the regretted departure of the latter from the Okanagan, while Robert Bailey took the place of P. Barnes upon the elevation of the latter. It was resolved that the banquet should be held, as before, at midday on the last day of exhibition, Thursday, September 22. An honorarium of ten dollars was voted to the Secretary, with the thanks of the Association for the good work he had done.

"Yes, I'll buy a ticket," said Mr. Newrich, when asked if he would attend a whisky drive. "I don't know anything about whisky, but I shall enjoy the drive."

## ANOTHER GOOD YEAR SENSATION!

A Guaranteed Tire at

**\$5.80**
